23/1/46

6) The information furnished by the Superintending Engineer, Shimoga circle shows that the anti-malaria scheme proposed to be taken up by the Shimoga Town mal el is independent of the Sagar hydle Shimoga project scheme referred to by the D under para 9 of his report and the proposal cannot be executed as a part & parcel of the latter for reasons stated by the Supdg Engr

Serial No

As the entire scheme costs Rs 75,300/- which is prayed for as a pwl grant it may perhaps be ascertained if each stage of the scheme consisting of three stages may not be carried out separately in order to enable the pwl to the rel el to finance the scheme in easy instalments subject to the reference to paras 3 & 5, supra

8/L A copy of the note furnished by the Superintending Engineer, Shimoga may be sent to the D.C. Shimoga regg the further quantum of State rel el ascertained in regard to the taking up of the second scheme on the order proposed

About the financing of the scheme the Pwl may perhaps be intimated that it should find ways & means to finance at least half the expenditure involved on this connection in view of the fact that the pwl are prepared to contribute a lesser share of the expenditure on connection with the drainage scheme to the city; it is

To The report called for

17) Submitted for orders of Govt
question may not be worked up
after the budget estimates
the mlf for 46-47 are sanctioned
Hra
1/10/46 18/21

19) A copy of the sanctioned budget estimates
is putup (the collection is also
placed below)

20) The following note is put up on
the subject

with a view to eradicate
malaria in Shimoga Town, an estimate
for Rs 75,300 was submitted
in Oct, 1945 for the anti-malaria
measures, as proposed by the
Director of public Health

21) The works proposed
to be taken up are detailed

Serial No

under para 3 & 4 of the Secs letter No 27-10-45-Fdg E

2) The above estimate was scrutinised by the Superintending Engineer, Shimoga circle who suggested to carry out the scheme in the following three stages - Vide his note Fdg B -

| | | cost Rs |
|---|---|---|
| | **I stage** | |
| 1 | Regrading and improving the surface drainage | 12,700 |
| 2 | Constructing subsoil drains | 21,700 |
| | | 34,400 |
| | **II stage -** | |
| 3 | Breaching Faulkere and Mulkere tanks | 13,650 |
| 4 | Breaching Nilghatta tank | 12,000 |
| | | 25,650 |
| | **III stage** | |
| 5 | Dismantling the existing masonry walls at the outfalls & reconstructing the same to proper grade | 15,250 |
| | Total (entire scheme) | 75,300 |

NOTI —Contn Sheet

Serial No

23) The stages are proposed to be taken up one after another in order to study the effect of each stage after its completion

24) The C E for irrigation agrees with the views of the superintending Engineer and the President of the Shimoga Town Mal el has also agreed to execute the work in the order proposed by the superintending Engineer

* Vide para 5 of the notes

25) As regards the question of financing the scheme, the entire cost of the scheme was prayed for by the Mal el as an outright grant out of State funds — Vide resolution of 1-8-45 — Pg A The financial condition of the self-is not satisfactory Pg 7

26) It is seen from the report now received, half the cost of the I stage of the scheme will be met out of the funds of the self- and the other half is prayed for as govt grant The provision of Rs 17,400 made proposed by The D E under D public works towards the expenditure side of the budget estimates for 46-47 to meet the cost of the I stage of the Antu Hana scheme has been retained in the forwarded budget estimates

The allotment is placed below — Vide Pg V-para

Serial No

27) In the above circumstances, points for orders are —

1) sanction to an estimate for Rs 75, 300/- for the execution of anti-malaria scheme at Shimoga in the following three stages —

| | | Rs |
|---|---|---|
| I stage | — | 34, 400 |
| II " | — | 25, 650 |
| III " | — | 15, 250 |

For details - vide para 22 of the notes

2) sanction to the recommendation of the D C Shimoga for the cost of the I stage of the scheme being met by the govt & the Shimoga Town Mal el in equal proportions

3) sanction to the grant of a sum of Rs 17, 200 out of the T P grant for the year 46-47 towards the govt share of the cost of the I stage

28) submitted for orders with reference to paras 8 & 9 supra

21/11 29) Please see the finding (letter dated 19th August 1946) from the Dy Commr Shimoga & pl move in the matter

forwards his remarks on the suggestions made by the D P H on the above.

3 The C E for Irrigation was consulted to intimate whether the ~~suggestions~~ Proposals made by the Supdt Engr or the Flag B/ D P H in respect of B' be accepted
Flag E/ 4 He is of opinion that the proposals of the Supdt. be accepted

5 In the circumstances, submitted for orders as in Para 27, Supra

RS 6/ 7 Pl keep up for orders. A brief note with facts of the cases necessary

1/1942

8 As represented by the Director of Public Flag L/ Health in his letter No B M dated 16 7 1945 to the President Town Municipal Council, Shimoga forwarded an estimate for Rs 75,300/- for complete Anti-malaria engineering works in Shimoga Town

9 The D P H states in his letter No 940/46-7 dated Flag S/ 21 11 46 to the D C Shimoga that with a definite Purpose in view, he has proposed the carrying out of the scheme in the following three stages —

I Stage —

| | |
|---|---|
| i) Regrading & improving the surface drainage | 12,700/- |
| ii) Breaching Jankere & Thilkere tanks, converting wet lands to dry & open chan | 13,650/- |
| | 26,350/- |

II Stage —

| | |
|---|---|
| i) constructing sub soil drains | 21,700/- |
| ii) Breaching Nilghatta Tanks converting wet lands to dry & open channels | 12,000/- |
| | 33,700/- |

NOTE— Contn Sheet

Serial No

III Stage:-

Dismantling the existing masonry works at the anicut falls & Reconstructing the same to proper grade etc, 15,250/

4(i) Both the Supdl Engr modified the above proposals as under, which were scrutinised and approved by the chief Engr for Irrigation.

First stage -

i. Regrading & improving the surface drainage 12,700/

ii) Constructing Sub anicut channel 21 700/

34,400/-

II Stage

iii) Breaching Jaikal & Mulkal Tanks 13,650/-

iv) Breaching Mighatta Tank 12 000/-

25,650/-

I Stage

v) Dismantling the existing masonry works at the anicut falls & Reconstructing the same to proper grade 15,250/-

4a) On receipt of D P H's letter (Flag S) the C E for Irrigation was requested to intimate whether the proposals made by the D P H & Supdl Engr be accepted He is of opinion that the proposal of the Supdl Engr be accepted

4 3 On the circumstances said for orders on Para 27, Supra

4/2 It is certain anti-malaria measures have been suggested by the Director of Public Health to be taken up at a cost

Rs 75,300 in the Chirayu Town three steps. These are proposed to be carried out thro the P W D by the Superintending Engineer, Thrissur circle while retaining all the steps in the three steps at the same estimated cost as arranged the work according to present in this manner the Dir of P.W. has stated that the arrangement proposed by him may be retained in the particular order recommended by him, as it is done with a definite purpose in view.

2) The part to four as the first stage is carried as follows:-

| According to the Dir of PW | | According to the Superintending Engineer, Thrissur circle | |
|---|---|---|---|
| | Cost | | Cost |
| Regrading improving the surface drain | 12,700 | 1, Regrading & improving the surface drain | Rs 12,700 |
| Breaching pulkkie & Pulkkie walls | 13,650 | 2 Constructing sub-soil drains | Rs 21,700 |
| total | 26,350 | total | 34,400 |

4) The Chief Engineer in Administration, while approving the modified proposal of the Superintending Engineer, states that, as the proposals to breaching the banks would take considerable time towards permanent settlement of the question, it was considered necessary

to modify the scheme in all the
three stages and provision should be made
to give effect to such portions of the scheme as
would improve the health of the locality as early
as practicable. This appears to be a
matter for amicable settlement amongst the
officers concerned by mutual consultation

) The Shimoga Municipal have made a
provision of Rs 17,000 in their Budget for
1946-47 to meet their portion of cost
of the I stage, needful for the proposed
by the Sup. Engineer
if for order as to which of the proposals
(I stage of the scheme) maybe approved — the one proposed
of Rs 26,350 by the Sup. Engineer, Shimoga
one proposed by the Sup. Engineer, Shimoga
at a cost of 34,400 - referred 3 stages

Received from
Bijapur

(2) Work has the Director of P.H.
to say about the alternative
Scheme suggested by the Chief
Engr? Are his remarks on
record?

b) The meeting was to held today - The Dir of P H & the Ch. Engr for Irrn were present & the subject was discussed

bb) The Ch. Engr was agreeable to the proposal of the Dir of P H

bbb) Put up Draft as instructed -

7) The financial position of the Municipality may also be stated

8/7/ce)

7) The cost of the entire scheme - though proposed to be executed in three stages - is Rs 7,5,300/- or the whole scheme put together at one time - That the A

the Comprehensive Estimate may be sanctioned and that the NLC may meet half the cost thereof in the Budget Estimates of '48 '49 for 47 '48 are not yet received. The financial results of the accepted Scheme sanctioned Budget for 46 '47 is as follows:—

73)

| | |
|---|---|
| opening Balance — | Rs 60 221/ |
| Receipts — | R 2 60 970/ |
| Total — | Rs 3 21 191 |
| Expenditure — — | Rs 3 00 029 |
| closing Balance — | Rs 21,162/ |

74) If the entire Scheme is ordered to be taken up, it would be a Commitment on the part of Govt as the Estimate is for Rs 75 300 the half of it is proposed to be met by the first instalment of Rs 37,650/ the case would have to be treated as Current matter

75) It is therefore for consideration if the entire Scheme may be sanctioned or whether only the first Unit

of the scheme coming to Rs 26,350/- out of which it was hoped to get Rs 13,175/- out of D. I funds for the current year the other half will be asked for provide for the balance of Rs 13,175/- in comprehensive estimate of the Ministry

76) A draft for sanction for taking up of also for construction new roads & bridges

77) orders are necessary on the points mentioned in paras 74 & 75 — for a

OFFICE OF THE MINISTER FOR REVENUE

of Malaria in Shimoga Town

d oner, Shimoga District forwarded
166/45-46 dated 27th October 1945 an
75,300/- towards the scheme of anti-
in Shimoga Town, prepared by the
which comprised of the following

Tank, Mulkere Tank and Millighatta Tank
ub-soil drainage of the several vdlleys
ha earthern drains and making necessary
r their proper maintenance
d a heavy outlay, the work was proposed
is detailed below -

| | | |
|---|---|---|
| | grading and improving the surface drainages | Rs 12,700/- |
| (2) | Breaching Jailkere and Mulkere tanks, converting wet into dry and acquisition charges | Rs 13,650/- |
| | Total | Rs 26,350/- |

| | | |
|---|---|---|
| Second Stage,-(1) | Constructing sub-soil drains | Rs 21,700/- |
| (2) | Breaching Milighatta tank, conversion and acquisition charges | 12,000/- |
| | Total | Rs 33,700/- |

| | | |
|---|---|---|
| Third Stage - (1) | Dismantling the existing masonry works at the out-falls and reconstructing the same to proper grade, etc | Rs 15,250/- |

The Chief Engineer for Irrigation to whom the estimate was sent un-officially got it scrutinised by the Superintending Engineer, Shimoga Circle who also suggested a re-arrangement of the stages of works in the manner indicated below in consideration of the fact that the breaching of the tanks which involves acquisition matters would take considerable time and the desirability in consequence of taking up such portions of work as would be completed quickly and at the same time improves the health of the locality

Subject - Control of Malaria in Shimoga Town

The Deputy Commissioner, Shimoga District forwarded with his letter No M 3 C 166/45-46 dated 27th October 1945 an estimate amounting to Rs 75,300/- towards the scheme of anti-malaria Engineering Works in Shimoga Town, prepared by the Director of Public Health which comprised of the following measures -

1) Breaching of Jail Tank, Mulkere Tank and Millighatta Tank
2) Canalysation and sub-soil drainage of the several vdlleys in the Town
3) Protection of Kutcha earthern drains and making necessary arrangements for their proper maintenance

As the scheme involved a heavy outlay, the work was proposed to be taken up in stages as detailed below -

| | | |
|---|---|---|
| First Stage - | (1) Regrading and improving the surface drainages | Rs 12,700/- |
| | (2) Breaching Jailkere and Mulkere tanks, converting wet into dry and acquisition charges | Rs 13,650/- |
| | Total | Rs 26,350/- |
| Second Stage, - | (1) Constructing sub-soil drains | Rs 21,700/- |
| | (2) Breaching Milighatta tank, conversion and acquisition charges | 12,000/- |
| | Total | Rs 33,700/- |
| Third Stage - | (1) Dismantling the existing masonry works at the out-falls and reconstructing the same to proper grade, etc | Rs 15,250/- |

The Chief Engineer for Irrigation to whom the estimate was sent un-officially got it scrutinised by the Superintending Engineer, Shimoga Circle, who also suggested a re-arrangement of the stages of works in the manner indicated below in consideration of the fact that the breaching of the tanks which involves acquisition matters would take considerable time and the desirability in consequence of taking up such portions of work as would be completed quickly and at the same time improves the health of the locality

First Stage -

| | |
|---|---|
| 1) Regrading and improving the surface drains | Rs 12,700/- |
| 2) Constructing sub-soil drains | Rs 21,700/- |
| | Rs 34,400/- |

Second Stage -

| | |
|---|---|
| 1) Breaching Jailkere and Mulkere tanks | Rs 13,650/- |
| 2) Breaching Milighatta tank | Rs 12,000/- |
| | Rs 25,650/- |

Third Stage

| | |
|---|---|
| Dismantling the existing masonry works at the outfalls and reconstructing the same to proper grade | Rs 15,250/- |

The Director of Public Health states that the order of priority assigned by him was with a definite objective in view and should stand, as he considers that it is necessary to observe the valleys after canalisation for at least one season before laying sub-soil pipes, and that the breaching of Jailkere and Mulkere tanks are sufficiently important to be given overbiding priority in the 1st stage

As regards financing the scheme, though the Municipal Council at first wanted Government to bear the entire cost, has subsequently resolved at its meeting held on 29-4-1946 that it would meet half the cost from its own funds, the other half being met by Government from Town Improvement Grants

## Final Note by the Minister for Local Self Government

***Subject*** — Control of Malaria in Shimoga Town

The Deputy Commissioner Shimoga District, submitted a scheme for the Anti-Malaria Engineering Works in Shimoga Town at an estimated cost of Rs. 75 300/- in consultation with the Superintendent, Bureau of Malariology which has the approval of the Director of Public Health also The main features of the scheme are

1) Breaching of Jail tank, Mulkere tanks and Millighatta tanks

2) Canalization and sub-soil drainages of the several valleys in the town and

3) Protection of kutcha earthen drains and making necessary arrangements for their proper maintenance

The scheme is proposed to be executed in three stages as indicated below -

| | Rs. |
|---|---|
| <u>First Stage</u> - | |
| (1) Regrading and improving the surface drainages | 12 700/- |
| (2) Breaching of Jailkere and Mulkere tanks, converting wet lands into dry and acquisition charges | 13 650/- |
| | 26 350/- |
| <u>Second Stage</u> - | |
| (1) Constructing sub-soil drainages | 21 700/- |
| (2) Breaching Mellighatta tank conversion of wet into dry lands and acquisition charges | 12 000/- |
| | 33 700/- |
| <u>Third Stage</u> - | |
| Dismantling the existing masonry works at the outfalls and reconstructing the same to proper grade, etc | 15,250/- |

The former Minister for Revenue and Communications after discussing the scheme with the Chief Engineer for Irrigation and the Director of Public Health has minuted as follows -

"The estimate for Rs. 75 300/- for anti-malarial works in Shimoga town may be sanctioned to be worked in stages The first stage which is expected to cost Rs. 26 350/- is proposed to be taken up for execution immediately Half the cost viz Rs. 13,175/- will be contributed as an outright grant from the allotment for improvement of town and minor municipalities' in the current year's State budget '

Item 84 of Notes & Q

The Dewan and the Ministers in Council to whom the file was circulated have agreed to the above proposals

The question of making grants to take up the remaining stages of the works is proposed to be considered on merits when each succeeding stage is taken up for execution

I solicit the gracious sanction of His Highness the Maharaja to the above proposals

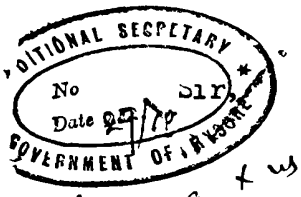
Office of the Deputy Commissioner,
Shimoga District
Dated, Shimoga, 27th October 1945

To

The Additional Secretary to Government,

Bangalore



Subject - Control of Malaria in Shimoga Town

I have the honour to state that the subject of control of Malaria in Shimoga Town has been the subject of special study for some time past and several anti- malarial measures were adopted from time to time to control the spread of Malaria, by way of breaching the Somalah Tank and by providing Sub soil Drainage system in the Durgigudi extension

2 Inspite of these precautionery measures the town is not yet free from Malarial effects It is also prevailing in parts of Shimoga Old Town as also in Durgigudi extension

3 With a view to erradicate Malaria in Shimoga Town, the Director of Public Health, Bangalore has suggested to the Municipal Council, Shimoga to take up the scheme of anti-malaria engineering works and forwarded an estimate in this behalf amounting to Rs 75,300/- The Scheme in question contains the adoption of the following permanent measures viz ,

i) Breaching of Jail Tank, Kulkere Tank and Hilligatta Tank
ii) Canalysation and sub-soil drainage of the several villeys in the town,
iii) Protection of Kutcha earthen drains and making necessary arrangements for their proper maintenance

4 As the entire Scheme involves heavy expenditure it has been arranged to be taken up in three stages as detailed below -

| | Estimated Cost |
|---|---|
| i) The first stage of the programme includes earthwork for relieving all collections of water and draining away all storm water | Rs 26,350/- |
| ii) Breaching of the two tanks | 33,700/- |
| iii) and thirdly Miscellaneous works to be carried out which form the third stage | 15,250/- |
| | 75,300/- |

5 The report accompanying the estimate explains the urgent necessary for adopting the Scheme in question The Municipal President, Shimoga, states that after receipt of the estimate under reference, the question was considered in all its aspects by the Municipal Council at its meeting held on 1-8-1945, when a resolution was passed to the effect that the estimate in question might be - sanctioned and that further, Government be requested to take up the work for execution, the entire cost of the Scheme being met from Government by sanctioning a grant - vide resolution copy enclosed for favour of reference

6 The Municipal President states that the Shimoga Town Municipal Council in addition to its slender resources, has heavy obligations to discharge both in respect of the existing and projected schemes like the Medical, Water Supply, and the Drainage Scheme In view of the fact that there is an immediate necessity for taking up anti-malaria measures to safeguard the public health of the town, the Municipal President requests that sanction of Government be obtained to the resolution of the Municipal Council passed at its meeting held on 1-8-45

7 I write to state that I have looked into the question and examined the position It is very necessary that some permanent measures have to be adopted to combat Malaria in Shimoga Town The Scheme under reference, which has been furnished by the Director of Public Health in Mysore, Bangalore, appears to be a suitable one and might be adopted

8 As regards the financial stability of the Municipal Council Shimoga to finance the Scheme in question, I write to state that the Municipality has other heavy obligations to discharge and further that it has to find funds to discharge the proposed loan of Rs 1,35,214/- which has been applied for towards the Drainage Scheme of the Town Kind reference in this connection is invited to this Office letter No M3 C 3102/41-42 dated 9th October 1945 I am to add that the request of the Municipal Council that Government may be pleased to sanction a liberal grant to meet the entire cost of the scheme, deserves - sympathetic consideration

9) I write to state in this connection that the question of taking up the Tunga Project near Sacrebyle in Shimoga District is under active consideration of Government and that due provision will have to be made in that Scheme also for adopting anti-malarial measures In view of this I would like to place before Government the present Scheme for Rs 75,300/- furnished by the Director of Public Health in Mysore, Bangalore, so that it might be got examined along with the anti-malaria measures to be adopted as a part of the Sacrebyle Anicut - Thunga Project Scheme in order to avoid as far as possible the overlapping of several items of work regarding preventive measures under both the Schemes

10) The estimates, plans and other enclsoures received on the above subject from the President, Shimoga Town Municipal Council - vide letter No C1 18/44-45 dated 3rd August 1945, are forwarded herewith for favour of reference

I have the honour to be,
Sir,
Your most obedient servant,

for Deputy Commissioner,

CONTROL OF MALARIA IN SHIMOGA TOWN

(Remarks of the Superintending Engineer, Shimoga Circle)

The position of the Left Bank channel from the proposed Tunga Anicut near Sacrebyle in the neighbourhood of Shimoga Town has been marked by this office on the Topo Sheet extract of the town found in the file The channel is proposed to be taken in a deep cut ranging from 10 to 50 feet from the Kilghatta tank valley up to the Jail Tank Valley crossing the dividing ridge between the two valleys at a saddle point situated about 3 furlongs distant on the Sagar road from the Circuit house The cost of 3 miles length of channel in this reach will be about four lakhs of rupees

The alignment of the channel from the Kilghatta tank valley if taken in the usual contour on the Shimoga Town side slope of the ridge would pass through the - - Lc Gann Hospital area and Durgigudi extension to join on the Jail Tank Valley The probable cost of such an - - alignment would be about a lakh of rupees as compared with the cost of four lakhs of rupees for the deep cut Though the contour alignment would work out cheaper it would introduce Malarial conditions in the town area on account of the seepage water, for preventing which costly antimalaria - - engineering works such as lining the channel etc , at heavy cost will be necessary In the long run it may work out to be as costly as the deep cut itself but with less satisfactory results

The deep cut alignment now proposed to be adopted avoids the Shimoga Town altogether and on account of the dividing ridge running west east between the Kilghatta tank and Jail tank valleys all chances of seepage water from the channel affecting the town area will have been eliminated

Under the conditions explained, any special antimalaria engineering works are not considered necessary under the Sacrebyle Anicut scheme with respect to Shimoga Town Municipal Areqa

The works proposed to be undertaken under the present estimate of Rs 75,300/- have therefore no bearing on the Sacrebyle anicut - scheme as they are meant to prevent the existing malarial conditions in the town area As contemplated in the estimate the works are proposed to be taken up in the following three stages

| | Rs |
|---|---|
| **I Stage** | |
| 1 Regarding and improving the surface drainage | 12,700 |
| 2 Breaching Jailkere & Mulkere tanks converting wet lands to dry and acquisition charges | 13,650 |
| Total | 26,350 |
| **II Stage** | |
| 1 Constructing sub soil drains | 21,700 |
| 2 Breaching Milghatta Tank converting wet lands to dry and acquisition charges | 12 000 |
| | 33 700 |
| **III Stage** | |
| Dismantling the existing masonry works at the outfalls and reconstructing the same to proper grade etc | 15,250 |
| Grand total | 75,300 |

These works are essential in the interests of the health of the Town They are independant of the Tunga Anicut Scheme The stages of works may perhaps be rearranged as noted below

| | |
|---|---|
| **First Stage -** | |
| 1 Regarding and improving the surface drainage | 12 700 |
| 2 Constructing subsoil drains | 21,700 |
| | 34,400 |
| **Second stage -** | |
| 3 Breaching Jailkere and Mulkere tanks | 13,650 |
| 4 Breaching Milghatta tank | 12 000 |
| | 25,650 |
| **Third stage -** | |
| 5 Dismantling the existing masonry works at the outfalls & reconstructing the same to proper grade | 15,250 |
| Grand total | 75,300 |

Items 3 and 4 viz , Breaching Jailkere, Mulkere and Milghatta tanks may be taken up after completing items 1 and 2 and studying the effects As regards item 5 it has to be examined in greater detail how the present proposals fit in with the proposed Underground Drainage Scheme for the town The existing masonry drains at the outfalls seem to be functioning fairly well They may continue until such time as the underground drainage scheme is taken up for execution

Sir,

With reference to your letter no R3 c 166/45 & 27-10-1945 re the malaria control scheme proposed to be taken up in the Shimoga Town limits I am directed to forward herewith a copy of the note on the subject submitted by the Superintending Engineer, Shimoga circle for obtaining the views of the Shimoga Town Mal el in regard to the taking up of the several schemes in the order proposed therein and to state as follows —

Re-cost of plg up for 1946-47

Typed a copy of F G K plans

About the frequency

of the Scheme, The Bill may be
intimated to the Board that it should find out
ways & means to finance at least
half the expenditure involved in
this connection, in view of the fact
that the profits are presumed to
meet a major portion of the expenditure
in connection with the Drainage Scheme to be executed,
on the whole, it is incumbent in the part
of the Bill to meet the moiety
of the cost, as stated above in the present case
Having regard to the demand from the
Bill is in the State for public improve
-ments, it will not be possible to comply with the
request of the Bill to meet the entire cost of the scheme
estimated at Rs 3,30,000/- Definite information as to how
the records accompany the Bill propose to
finance the scheme
should be
forwarded to this

Sir

Subject - Control of malaria in Shimoga Town - estimated cost Rs 75 300/-

With reference to our letter of even No dated 28-3-46 calling for the views of the Shimoga Municipal Council in regard to financing the scheme I have the honour to state that the Municipal President has consulted the above reports that the suggestions of the Superintending Engineer were discussed by the Council at their meeting held on the 29th April 1946 and they have resolved that the scheme may be taken up for execution in three stages as suggested and agreed to contribute half the cost of the scheme

The Municipal President states that the District Health Officer Shimoga with whom he discussed the question on 11th June 1946 was of the opinion that the work of ... of Tank Kukkere Tank and Hallaghatta Tank should be taken up for execution in the first place in preference to other works as originally proposed by the Director of Public Health Bangalore in order to control malaria in Durgigudi Issur and other extensions of the Town

The Municipal Council have also pointed out now their share of contribution for raising the estimated cost of the scheme may proposed to be met. I therefore referred the matter to the President for consideration of this aspect of the question and for his report in the matter

Sir,

Control of Malaria in Shimoga Town

Adverting to your letter No L 8443 dated 6-12-1946 on the above subject and requesting my remarks on the suggestion now made by the Director of Public Health in Mysore, Bangalore, I have the honour to state that the modifications indicated by the Superintending Engineer, Shimoga Circle and agreed to by me, were suggested as the proposals for breaching the tanks take considerable time as ~~they~~ involve settlement of acquisition question It was therefore considered necessary to modify the 3 stages of the works and fix the priority in the way now proposed so as to give effect to such portions of the work as would improve the health of the locality as quickly as practicable I am of opinion therefore that the modified proposals may be accepted

I may however mention that no exception has been made in regard to the several preventive methods formulated by the Director of Public Health in Mysore Bangalore
